

15<sup>th</sup> July 2025

**Ref: 070/07/ATU/CIR/PC-2025**

➤ Circular to Member States & Associate Members

**Subject: Capacity Building Side Event Towards Sharing and Compatibility Studies for WRC-27 Agenda Item 1.7**

Reference is made to the ATU Circular Letter of 6 June 2025 inviting Member State Administrations to the Second African Preparatory Meeting for WRC-27 (APM27-2), which will take place in Nairobi from 11th to 15th August 2025.

During sub-regional consultations, several Administrations expressed interest in joint government-industry work aimed at developing technical contributions to WP 5D. Particular attention centers on sharing and compatibility between the fixed service and IMT in the 7125–8400 MHz band, using scenarios that mirror real national conditions.

To strengthen delegates' technical readiness, APM27-2 will be preceded by a half-day capacity-building session **on Sunday, 10th August 2025, 14:00–17:00 EAT, at the Movenpick Hotel, Nairobi**. The forum will review ongoing ITU-R Working Party studies in preparation for WRC-27. The event therefore offers a forum for interested delegates to engage directly with experienced industry teams that are already examining such scenarios.

Delegates who wish to attend this session are invited to complete the registration form provided in this link (<https://atuuat.africa/registrations-events/2nd-apm27-2/>). A detailed agenda will be circulated to registered participants. For planning purposes, kindly register by Friday, 1 August 2025.

We look forward to your positive and timely response.

Sincerely,

John OMO  
Secretary-General.
